

# It's not good for our water... either.

Whenever you are outside and you notice a piece of trash, please stop and dispose of it properly. Your rivers, creeks and lakes depend on you. What isn't collected today is picked up in the next rainstorm and sent directly to the nearest creek. From the moment this small piece of trash enters our waterways, it is responsible for a tremendous amount of damage.

Local stormwater agencies, including participants of the Douglas County Stormwater Co-op Group, SPLASH and SEMSWA, are teaming together to bring you this message. We take this so seriously that we posted this ad rather than send you more garbage in the mail. Together, with your help, we can make a difference in keeping our waterways clean. Look for this ad in coming months for more ways you can get involved.

**Please report accidental and illegal dumping to your local agency.**

**ADOPT  
A  
HIGHWAY**

Creek and highway cleanup efforts help offset pollution from our major transportation corridors.  
Contact your local agency to find out how you can get involved.
