

Don't duck your responsibilities.

Good thing this is only a rubber duck. When you don't dispose of your trash properly, the harm is very real. Trash in our waterways looks ugly, is harmful to fish and wildlife and damages the natural environment. Your rivers, creeks and lakes depend on you. Make a difference close to home and contact your local agency to find out how you can get out and clean up your creeks.

Local stormwater agencies, including participants of the Douglas County Stormwater Co-op Group, SPLASH and SEMSWA, are teaming together to bring you this message. We take this so seriously that we posted this ad rather than send you more garbage in the mail. Together, with your help, we can make a difference in keeping our waterways clean. Look for this ad in coming months for more ways you can get involved.
